Deakin University - Melbourne, Australia

Admission requirements: 4-year bachelor degree in engineering or equivalent.

Graduate Diploma in Engineering

Course Requirements: completion of 8 credit points (2 common core units, and at least four units from a specialism in one of Electronics and Telecommunication, Information Technology and Telecommunication, Water Environment or Mechanical).

Total annual course fees (Australian dollars 2008): \$23,650

Master of Engineering

Course Requirements: completion of 12 credit points. (2 common core units, a specialism in one of Electronics and Telecommunication, Information Technology and Telecommunication, Water Environment or Mechanical, and 4 elective units).

Edith Cowan University - Perth, Western Australia

Australia's second largest University with over 23,000 students.

Admission requirements: a related bachelor's degree in engineering

Master of Engineering Science

2-year program designed for advanced level research in computer, communication, electronic or information engineering.

Murdoch University - Perth, Western Australia

Admission Requirements: At least a four-year bachelor degree in an area relevant to the specializations available within the course. Applicants should also possess an appropriate level of industrial experience

Master of Engineering

2-year course with a total of 48 credit points.

"The Master of Engineering is intended for practicing professionals who are currently working in the specialized areas of Process Control and Instrumentation Systems and Electrical Power Engineering in a wide range of manufacturing, processing, and information technology industries. The two streams of the ME include Instrumentation and Control Engineering and Power Engineering."

The University of Wollongong - Wollongong, Australia

Graduate Certificate in Engineering

6-month program

Admission requirements: a bachelor of engineering degree from a recognized tertiary institution.

Graduate Diploma in Engineering

1-year program

Admission requirements: a bachelor of engineering degree from a recognized tertiary institution.

Master of Engineering

1-year program in various engineering fields including civil, environmental, materials, mechanical, mining, and mechatronics
Admission requirements: bachelor's degree in engineering, with honours.

The University of Western Australia - Perth, Australia

Located in beautiful Perth, Australia, UWA is one of Australia's leading research universities.

UWA offers graduate certificates/diplomas, master's degrees, and doctorates for various programs in the fields of engineering, computing and mathematics as well as engineering research.

Admission into the graduate program of engineering generally requires a bachelor degree from a recognized post-secondary institution.

The University of Auckland – Auckland, New Zealand

Postgraduate disciplines: Bioengineering, Chemical and Materials, Civil, Computer Systems, Electrical and Electronic, Engineering Science, Environmental, Mechanical, and Software engineering.

Graduate diploma in Engineering (1 year program):

Admission requirements: a related bachelor's degree from a recognized tertiary institution or appropriate experience.

Total annual course fees (2009): TBA

Master of Engineering (1 year program):

Admission requirements: a bachelor's degree in engineering with honours from a recognized tertiary institution.

The University of Glasgow – Glasgow, Scotland, UK

Postgraduate disciplines: Aerospace, Chemical, Civil, Electrical and Electronic, Geotechnical, Mechanical, Space Mission Analysis and Design, Structural, System Level Integration, Telecommunications, Water Resource, and Aeronautical engineering.

Admission requirements: normally, a related bachelor degree with honours. Sufficient experience may be recognized as equivalent.

Graduate Diploma in Engineering (9 month program)

Master of Engineering (1 year program)

The University of Edinburgh – Edinburgh, Scotland, UK

Postgraduate disciplines: Artificial Intelligence, Bioengineering, Electronics, Science and Technology, Signal Processing & Communications, Speech & Language Processing, Structural & Fire Safety, Structural & Mechanics, Sustainable Energy Systems, and System Level Integration engineering.

Admission requirements: normally, a related bachelor degree with honours. Sufficient experience may be recognized as equivalent.

Graduate Diploma in Engineering (1 year program)

Master of Engineering (1 year program)

Trinity College – Dublin, Ireland

Postgraduate disciplines: Applied Building Repair and Conservation, Bioengineering, Civil, Construction Law and Contract Administration, Recurrent Education, Fire Safety Practice, Highway and Geotechnical, Integrated Systems Design, Mechanical, Music and Media, Physical Planning, Project Management engineering.

Admission requirements: honours degree or equivalent in engineering

Graduate Diploma in Engineering (1 year program)

Master of Engineering (1 year program)
